

ACCUTEL

CONDUCT YOUR CONFERENCE CALLS AT THE LOWEST RATES IN THE MARKET!

Accutel Inc. is the latest innovation from the people who have been pioneering the conferencing industry for decades. Whether meeting by audio, web or video, we have the technology, combined with full-featured services to ensure that once you've met with us, you won't ever want to meet anywhere else.

Establishing a connection with Accutel gives you access to the most advanced conferencing technology available today including state-of-the-art fiber optic installations and digital bridging technology. Via internet or telephone, our team assures you the highest possible quality of service in your conference. Conduct your conference call at any time, with participants from anywhere in the world, while keeping your costs to a minimum!

Innovative Offerings Unique to Accutel:

- **PINConnect**

PINConnect saves your participants time by using a unique identifier (PIN) for each person joining an Operator Assisted or Event call. This allows participants to bypass the queue associated with having to leave information with an Operator, as is currently the industry norm. The PIN is generated via an online registration form that collects information customized on a customer-by-customer basis. PIN's are stored in the system and can be used for future calls without having to reregister. Operators would then start the call and monitor for Q&A, Polling, and any other services as required.

- **Streaming through your very own MyAccutel Portal**

Retrieving your recording has never been more convenient or provided at a lower cost. Recording of your entire conference call is available in one of 3 ways by accessing your account at www.accutel.com and clicking on Recordings/Webcasts (for hosts/administrators only). Administrators can simply listen, download (and email), or stream the recording any way they wish.

DON'T HESITATE TO CONTACT ACCUTEL TO HEAR WHAT ELSE WE CAN DO FOR YOU!
