

Mary Ann Morin, CPA-CMA, CAFM

Profile

Mary Ann Morin - As a Chartered Professional Accountant and Certified Aboriginal Management Accountant and working in the field of accounting, including training, audit and management functions, I believe increased knowledge for board members in the role as a Board Treasurer and Finance and Audit Committee in governance is a skill that is needed in ensuring Board members are accountable to the public for funds that are accessed and fiduciary responsibility is maintained along with knowledge of the ability to influence decisions for personal gain.

Board members are the vision of the organization and resources including funding is maintained in an accountable, transparent way to meet this vision. Today every newspaper has another example of fraud, which lead to legal and time costs increasing to address these allegations and proper training would/could alleviate these costs, therefore increasing the bottom line to continue with the vision of the organizations.

As a Nehiyaw/Michif originally from Green Lake, a northern Saskatchewan Metis community, my dream is to ensure people are sufficiently knowledgeable of the /governance financial skills required to make the board decisions that will sustain all people in the next seven generations.
